12 Dies

8d Orange (plate1) introduced *11th September 1876*.

Two plates were produced, but plate 2 was never put to press. The original colour was to be Purple-brown, but later changed to Orange. This was the standard rate to India (via Marseilles) and Australia (via Brindisi). After withdrawal the denomination was not re-introduced until August 1913!

9d Straw (plate 4) introduced *3rd October 1867*.

The value was originally introduced in 1862 as the rate to India, Australia, and Brazil. Only plate 4 on watermark 'Spray' paper is known with Perfins. The 9d stamp was withdrawn in 1877, but was re-introduced on 1st August 1883 with the 'Lilac and Green' Issue. This in turn was replaced on 1st January 1887 by the 9d value of the 'Jubilee' Issue of Queen Victoria.

10d Red-brown (plate1) introduced *1st July 1867*.

This value was specifically for postage to India, Mauritius and Australia via Marseilles. The rate was changed in 1870, after which there was little demand and in 1877 the value was withdrawn. Two plates were produced, but plate 2 was never put to press. The 10d value was re-introduced on 24th February 1890 as part of the 'Jubilee' Issue of Queen Victoria.

A selection of examples with better postmarks!
